VIDEO PRESENTATION

After recoding my course presentation, I realized that I went over the time limit by a lot! I'm going to submit this video so you can see my course in more detail. If you could provide me with your email address, I can invite you to my Schoology course so you can go through it if you would like. I plan on recording my video again and not going in to as much detail for my week five post; this will help me keep it between the three to five-minute requirement. I look forward to hearing your feedback. Have a great week! <https://youtu.be/LAYmV9Lg1oE>
